An Investment of National Interest

There is no better or safer investment than the 7 per cent preferred stock of the Fore River Ship and Engine Co. of Quiney, Mass. It is a legitimate seven per cent investment, and the wide range in the subscriptions already received serves to illustrate the popularity of the effer made and the way in which it appeals to the public

It is an interesting fact that the entire plant and workmen can be kept employed until the fall of 1964 with the work now on hand. Since the offering of the stock to the public the company has been awarded a contract for two very large steel car floats for the New York, New Haven and Hartford Railroad.

The Audit Company's report of net earnings in five months of over \$100,000 shows what the plant is earning, and, if only this rate is maintained, dividends can be paid on the Common stock after paying dividends at the rate of 7 per cent on the entire amount of Preferred stock.

In purchasing the Preferred stock of this company you are not placing your money in the hands of incompetent people, but investing within responsible concern of seventeen years' experience, paying 7 per cent dividends, and offering the greatest security. The business is without the usual credit element of risk, owing to the work being so largely for the United States Government, from whom regular payments on account are received as the work on the ships progresses.

The machinery and equipment are of the latest design, and no shippard is better equipped or superior in

It should be borne in mind that this is the first offering of the stock of this Company to the public. Up to the present time all excepting the trensury stock has been held in the hands of the co-partners, who have built up this successful business from small beginnings, and their investment, before the public was asked for subscriptions, amounted to a million and a half of dollars. The direct offering of the stock to the public, instead of through brokers and hankers, is a following out of the policy of the Company to give to its stockholders every advantage. By this method commissions which would, in the case of an offering through bankers, accure to the bankers, will be saved for the stockholders of the Company.

The fact that the Company has been awarded two battleships at one time is an evidence of the manner in which it is regarded by the Navy Department.

Reference is made by permission to several national banks and trust companies.

are on file in the company's office, and may be seen on application.

It should be borne in mind that subscribers for the stock at the present time, in addition to securing the 50 per cent beaus of Common stock, which offer may be withdrawn at any time, will receive the regular semiannual dividend of \$3.50 per share on the Preferred stock, payable July 14th, 1902. A limited amount of the stock remains unsold.

Preferred stock, carrying with it the July dividend. To any one desiring further information an illustrated description of the plant wil, by sen, tegether with a complete financial prospectus, the certificate of the Eastern Audit Co., and other matters pertinent to the investment offered. Copies of reports made on the plant by several eminent naval and marine authorities

10 per cent in cash with an application for stock will secure an applier for thirty dars any amount of

FINANCIAL.

BETTER AND BETTER

Are the Reports From the California King Gold Mines,

Senator Pettigrew Wires About the Large Deposit of \$10.00-Ore, Which Adds Millions of Dollars to the Value of the Property.

On Wednesday night we received the following telegram from Senator Pettipresident of the California King Gold Mines Co .:

King Gold Milles Co.;

Tums, Arizons, May 28, 1862

Laclede Investment Co.

109 Pine Street, St. Louis, Mo.

We have found the hanging wall for over three
thousand feet and a great body of ore that will
go ten dollars per ton. I believe the mine is
werth very many millions.

R. P. PETTIGRIOW. Senator Pettigrew is also chairman of the Executive Committee and will stay

on the property until the mill starts It is almost impossible to estimate what this body of ore means in added value to the property.

All the estimates of values have been based on ore at \$3.50 per ton. When you consider that there are millions of tons that will go \$10.00 and better you must agree that the mines are worth "very many millions," as the telegram says.

Work is progressing rapidly on the mill and it will be running by July 1 without fail. The railroad is finished and the cars and locomotives are on hand ready to carry the ore as soon as the mill is finished.

We cannot urge you too strongly to buy this stock now while it can be secured at \$3.00 per share. The company is capitalized for \$5,000,000-1,000,000 shares, par value, \$5.00.

The mines are located in San Diego County, Cal., 20 miles north of Yuma. Ariz., and cover 560 acres. It is the largest deposit of low-grade

ore in this country. The ore can be mined and milled for less than \$1.00 a ton. The mill has a guaranteed capacity of

1,000 tons a day. If the ores average only \$3.50 per ton the profits will be \$2,500 a day, or 25 per cent on the investment, but with per cent on the investment, but with \$10.00 ore and millions of tons of it, the

profits will be much larger. We consider this one of the most meritorious stocks now on the market, with wonderful prospects for the fuere.

Dividends will be paid in September. If you want further information write for illustrated stockholders' report and

prospectus. Bemit in the usual way To the Authorized Agents, LAGLEDE INVESTMENT CO., BRUCE B. OYLER, President. Phone, Kinloch C 2165. 707-9-11

EGYPTIAN RUINS ARE DUPLICATED IN MEXICO.

Similarity of Obelisks and Tombs Found in State of Osxaca and Land of Nile.

Mexico City, May 31.-Leopoldo Barres. onservator of national monuments, has returned from his explorations among the ruins of the Zapoirean cities in the State of Onxaca.

Among other discoveries he found the ruins of an ancient city on Monte Alban, which shows unmistakable indications of having been submerged perhaps 2.00 years ago, for traces of extinct marine life were

discovered.

Among the ruins is an obelisk similar to those of Esyph, which was found placed at the entrance to a tomb exactly as was the custom in Esypt. Mr. Batres will make a detailed report of this remarkable pre-historic city to the Government.

Monte Alban was visited some time ago by Frofessor Colmes of the Smithsonian Institution of Washington, D. C. It stands 1800 feet higher than the city of Oskaca and it has a center square surrounded by great temples.

and it has a center square surrounded by great temples.

The water system for the park will be finally completed, at a cost of \$5.00. This consists of a reservoir holding 1.50.000 galelons, elevated high enough to give fire protection and water supply to Port Vellowsmane, the hotels at Mammoth Hot Springs and the United States emineering quarters, and to irrigate the mile square plateau near Fort Yellowstone, which will be made highly productive thereby.

The largest single item of \$50.000 is not one-fifth of the sum that will be upent by the Federal Government, just to keep the dust out of the eyes of visitors at the park. The dust evil became so serious last year that Colonel Chittenden tecommended to the department macadamizing 150 miles. quarters.
The sum of \$20,000 will be in building new quarters for

AGRICULTURAL STATISTICS.

Interesting Figures Show Progres in Counties and Reservations.

REPUBLIC SPECTAL Washington, May 31.—The Census Bureau has issued a report comprising agriculturel statistics of the counties and Indian, nations in the United States. It shows that the Chickness Nation, Indian Territory, leads in the number of farms, having 18,374. The following rank next. The Cherokee Nation, Indian Territory, 13.537 farms; Chockee Nation, Indian Territory, 9.562; Lancaster County, Pennsylvania, 5.457; Orangeburg

County, Fennsylvania, N.A., Orangeorg County, South Carolina, 8.408, and St. Law-rence County, New York, 8.333. Crow Irston Reservation, Montana, lends in farm — v., vith 3.500,000 acres. It is fol-lowed at Lastiey County, Texas, 3.246,285; Chickasaw Nation, Indian Territory, 3.246,-187; Wichita, Klowa and Commanche In-dian Reservation, Oktahoma, 2.90,575, Perox IS: Wichita Klowa and Commanche Indian Reservation, Oktahoma 2,90,876; Pecos County, Texas, 2138,56; and Cherokee Nation, Indian Territory, 1,816,718. Hurtley County, Texas is the headquarters of large cattle companies and some of the area reported as belonging to that county undoubtedly is situated in surrounding counties. Cherokee Nation Indian Territory, Icade in improved farm area, having 1,103,62 acree. It is followed by Chickasaw Nation, Indian Territory 1,111,63 acree. DIVIDEND

Declared for Stockholders of Record, July 1st, 1902.

YOU ARE TOO LATE FOR THE JUNE DIVIDEND, BUT FOR A SHORT TIME . . .

You will get with each share of dividend-paying stock of the Continental National Oil and Refining Company an oil certificate for one barrel of oil.

DON'T STOP, BUT LET US TELL YOU WHY

Other companies are putting traveling salesmen on the railroad and spending large amounts of money in advertising and commissions in trying to find a market for their oil.

Our Stockholders Are Our Salesmen. Our Stockholders Receive the Traveling Man's Pay. Our Stockholders Get the Advertising Money. Our Stockholders Get the Commission on Sales of Oil. 3 3 9 Our Stockholder Gets an Oil Certificate 3 3 3

Worth as Much as He Pays for His Oil and Stock Certificate Combined.

Oil experts say oil will be worth 50 cents per barrel in less than six months. Don't say we are giving the stockholders too much because we are giving them more than any other company. It is the way we do business. Now when we give you this oil free, don't ask us to buy it from you. We couldn't pay dividends if we did. Find a customer for it yourself. You don't have to pay for barrels to load it in. The railroads will furnish tank cars. The only cost to the person having the oil certificate is a small charge of two cents per barrel by the pipe line company for loading.

IT'S SIMPLE! IT'S A GOOD PLAN! IT'S A SUCCESS!

Every person accepting our offer to put up \$500.00 and visit the oil fields, transportation furnished by us, will be thoroughly satisfied or the purchase will not be made.

L. A. SKINNER, PUBLISHER, 63 FIFTH AVENUE, NEW YORK CITY, says: "The trip to the Beaumont fields, and the investigation of the Continental National Oil and Refining Company's holdings was a revelation to me. Instead of the literature of your company being an exaggeration. I will say that the half was not told. I did not understand how the company could give an oil certificate, but I find that the company can afford it, and that it is the best investment I know of. I note with pleasure that your company has declared its second monthly dividend. "Yours truly, L. A. SKINNER."

Send us your order for stock and ask for prospectus. If within fifteen days after prospectus and stock are mailed, you become dissatisfied, your money will be returned.
